

CAMP TAW'S TOP INTERVIEW TIPS

Let's Do this!

BE ON TIME

Be ready at least 10 minutes prior to your interview time. If Camp TAW doesn't contact you within 5 minutes of the time, reach out to them to confirm. It also helps to find a quiet, private, well-lit place, free from possible interruptions. Place your phone and other electronics in silent mode. The goal is to minimize ALL distractions.

CHECK YOUR TECH AHEAD OF TIME

Ensure your internet connection is stable and check that your computer's audio is working along with your webcam! This will help as you can be aware of body language. Your employer wants social cues that you are engaged in the conversation and actively listening. This can only be done with functioning technology.

DRESS TO IMPRESS

Dressing professionally goes a long way into making a great first impression. Don't forget, this is our first time seeing you as a potential employee of camp. What do you think if we see you for the first time in your pajamas?

BE PREPARED

There is a great chance we will ask you scenario questions. It would be a good idea to think ahead about how you would respond in various camper situations. Have a way to take notes if necessary. You never know what you may need to write down.

ASK QUESTIONS

Ask questions! After reviewing our website, write down questions you have about camp. What are our core values? What is camp's mentor style? What do leadership opportunities at Camp TAW look like?
